

# WE ARE RECRUITING

The CRBOH has partnered with BOHS to bring Breathe Freely program to Canada. Breathe Freely is aimed at reducing occupational lung disease by raising awareness both of the challenges and the occupational hygiene solutions.

We're looking for project team volunteers to adapt the existing Breathe Freely program starting with the construction and manufacturing sectors . If you'd like to volunteer, or would like to learn more about this project, contact Jason McInnis at [cjmcinnis@breathefreely.ca](mailto:cjmcinnis@breathefreely.ca)
