

Are you ready for a new challenge? We have an exciting opportunity to join our Environmental Health & Safety Team as our **Industrial Hygiene Lead!**

**You will:**

- Lead & execute the strategic vision for Industrial Hygiene at AltaGas
- Communicate & translate complex industrial hygiene concepts throughout organization
- Work collaboratively and build trusted relationships with our employees
- Be an advocate for industrial hygiene, developing and building commitment and awareness of strategies, business plans, programs, policies, and practices
- Partner with occupational health to support strategy, support day-to-day activities and initiatives
- Support emergency response, incident investigations, and ongoing operations
- Lead incident investigations to ensure all corrective actions are developed jointly with the frontline leadership team, tracked through to conclusion, and make recommendations to senior leadership as required
- Report directly to the Manager, Industrial Hygiene & Personal Safety

**You have:**

- Bachelor's Degree in Safety, Industrial Hygiene, or related field preferred
- 7+ Years of proven progressive IH experience
- Certified Industrial Hygienist (CIH) Registered Occupational Hygienist (ROH), Registered Occupational Hygiene Technologist (ROHT), Certified Registered Safety Professional (CRSP), or Certified Safety Professional (CSP) or we will also sponsor you to get your certification!
- Experience developing and/or managing occupational health and safety programs preferred
- Knowledge and training in investigative practices, safety and occupational health incident investigation, and root cause analysis
- Proven experience in business applications, data analysis, and project management
- The ability to travel to various AltaGas locations as required

**Why work at AltaGas?**

**AltaGas** is a North American energy infrastructure company with a focus on owning and operating assets that provide clean and affordable energy to our customers. AltaGas assets include Washington Gas/WGL, SEMCO, ENSTAR, and Petrogas. Our talented team, nearly 3,000 strong, leverages the strength of our assets and expertise along the energy value chain to connect customers with premier energy solutions – from the well sites of upstream producers to the doorsteps of homes and businesses to new markets around the world.

We deliver clean and affordable natural gas to approximately 1.6 million customers' homes and businesses through regulated natural gas distribution utilities across five jurisdictions in the United States and two regulated natural gas storage utilities in the United States.
